The profit distribution policies, decision making procedures and mechanism of the Company are as follows:

The Company makes a profit distribution each year in principle, and the Board may propose to distribute interim cash dividends under the circumstances of the Company.

- (3) Specific conditions and ratios of cash dividend: Under the circumstances that the profit of the year and the accumulated undistributed profit are both positive, the cash dividends for the year of the Company should not be less than 10% of the

distributable profit realized for the year in principle if the Company does not have any major investment plans or incur any significant cash expenses. If the revenue of the Company is growing rapidly and the Board considers that the Company's share price does not match the size of its share capital, and the distribution of dividends in shares would be in the interests of all shareholders of the Company as a whole, the Company may propose and implement a proposal on distribution of dividends in shares provided that the above conditions for distributing cash dividends have been satisfied.

- (5) Mechanism and procedures for decision making on profit distribution: The Board shall propose a reasonable dividend distribution proposal and plan based on profitability, capital needs, and the shareholders' return plan of the Company. The proposal for profit distribution of the Company is formulated by the Board and, upon consideration and approval by the Board, shall be proposed at the general meeting for approval. Independent Non-Executive Directors should express independent opinions in this regard.

If the Company is able to pay dividends and the Board of the Company does not prepare a cash dividend proposal, the Company shall perform its information disclosure obligation in accordance with the procedure as mentioned above.

- (6) Adjustments in and amendments to profit distribution policies: The Company shall strictly implement its cash dividend policy as required in the Articles of Association and the specific cash dividend proposal as considered and approved by the shareholders' general meeting.

The resolution on adjustments in cash dividend policy is formulated by the Board. Independent Non-Executive Directors shall express clearly independent opinions. The adjusted cash dividend policy, upon consideration and approval by the Board, shall be proposed at the general meeting for approval and shall be implemented upon being passed by at least two-thirds (2/3) of the voting rights held by the shareholders attending the shareholders' general meeting.

- (7) Mechanism for dividend supervision: The Supervisory Committee shall supervise the implementation of the profit distribution policies and the shareholders' return plan of the Company by the Board and the management and their decision making procedures.

The Board and the shareholders' general meeting of the Company should fully consider the opinions of Independent Non-Executive Directors and small and medium investors in making decision on and justifying the profit distribution policy. When the specific cash dividend proposal is considered at the shareholders' general meeting, the shareholders' general meeting should proactively communicate and exchange ideas through multiple channels, including but not limited to setting up hotlines and investor relations mail box, with shareholders, and the small and medium shareholders in particular, and fully listen to the demands of small and medium shareholders.
